

Request for Lightning Protection Installation Quote

To Whom It May Concern,

My name is John Roberts, and I am the Facilities Manager for Evergreen Corporate Center. We are currently seeking a formal quote for the installation of a complete lightning protection system for our primary office building. As part of our safety and risk-mitigation program, we are evaluating certified lightning protection contractors to provide a turnkey solution meeting UL 96A and NFPA 780 standards.

Building Information:

- Building Height: 74 feet
- Total Roof Area: 38,500 square feet
- Perimeter Length: 840 linear feet
- Building Type: Three-story commercial office structure
- Roof Type: Flat membrane roof with several HVAC and communication units

Please include the following in the quote:

1. All required air terminals, bonding, grounding, and conductor routing
2. Site assessment and any recommendations for code compliance
3. Materials, labor, installation schedule, and warranty information
4. Any optional enhancements or upgrades

We would appreciate receiving the proposal at your earliest convenience. If additional details, drawings, or site access are required, feel free to contact me directly.

Thank you for your time and consideration.

Sincerely,
John Roberts
